

PRG Digital Studios Chicago

Built for fast, efficient production at any scale with anything or anyone you need on-site, this studio is designed for livestreaming or recording of corporate presentations like keynotes, product launches and town halls. The space can also be easily configured for commercial and music shoots with access to the most extensive inventory of cameras, lenses and accessories transferred directly from our Chicago camera prep facility.

Services available based on project requirements:

- Broadcast and streaming capabilities for all linear and digital platforms
- Studio, conventional and automated lighting fixtures
- Audio packages including microphones, loudspeakers and mixing consoles
- Flexible LED ceiling panels, floor and walls
- Large entrance to studio allows a car or SUV to be driven right onto the set

Virtual Production Capabilities

- Enhanced Environments™ state-of-the-art green screen replacement uses projection and LED screens to create natural-looking backgrounds and lighting reflections on set
- Ncam® providing in-camera previsualization and real-time camera tracking
- 35LIVE!™ Multi-camera production technology that combines the power and immediacy of broadcast television with the soft look and feel of film production and delivers them to screens of any size.
