

PRG Digital Studios Las Vegas

PRG Digital Studios are built for easy, fast, efficient production at any scale, from a livestreamed corporate presentation to a dynamic music video featuring an immersive virtual set.

This highly configurable studio is located just 5 minutes from the Las Vegas Strip. Music acts can recreate their live shows on this large stage with LED walls, automated lighting and full backline support. Or, it can be adapted to create an intimate setting for a keynote speaker or a panel discussion.

We are taking all possible precautions to ensure the safety of our employees, customers and visitors during the COVID-19 pandemic by implementing new measures and guidelines including the use of personal protective equipment, increased sanitation procedures and an isolated entrance with temperature check. Learn more about our protocols in our [Safety and Sanitation Policies](#).
